Our people globalization processes under the influence living one in time, this processes international to relationships, the world to the economy and to diplomacy big effect However, this under the circumstances also patriotism, self to his country was loyalty and his/her interests protection to do feeling own importance does not disappear. On the contrary, global threats intensified To our homeland preservation and love, his independence and safety to provide responsibility every since when also more important to be remains. On September 2, 2017 transferred Uzbekistan Republic of Independence per day dedicated solemn at the event , our country leader Shavkat Mirziyoyev: " Patriotism is first in turn, oneself to your people and mother to the country was love, him protection to make, to develop contribution " adding " [ 1 ] This words Uzbekistan of the people independence years during collected experience and identity understanding as acceptance Our ancient ancestors fate , they own his country protection to do for shown courage to us Homeland of love the most supreme sample shows. Such to the ideal relatively doubt with looking views to be Regardless, we are indeed different. kind identities with face to face we are coming, this and cosmopolitan life style promote as However, the military the service own life chosen as the path brave people, military profession to themselves They consider it an honor. and Homeland protection on the way every how to

difficulties ready In this process, the concept of cosmopolitanism importance nationalism and multiculturalism such as concepts current of the day the most current and many recurring to his words around Patriotism ancient ancestors blood with irrigated to the ground was love us unites and Our homeland to protect encourages. So yes, military patriotism is not only profession, maybe high duty and It is an honor.

Patriotism is person's own Homeland, people, culture and to the history was deep love, loyalty and pride representative socio-political and spiritual and moral It is a principle. This feeling own Homeland interests protection to do, its independence, sovereignty and territorial integrity to keep aspiration, its economic, social and cultural to develop contribution to add readiness Patriotism also means nationalism. identity understanding, self of the people historical legacy appreciation, national values storage and develop, own of the state symbols respect to do such as elements as well inside " The homeland will take it." to love " It is from faith " hadith sheriff patriotism of feeling Islam in religion importance representative important is an instruction, [2] it is hadith To the homeland was love human spiritual world, moral qualities and religious belief with closely attachment, patriotism of faith inseparable part that, to the Motherland was love human spiritual to perfection in achieving important factor to be, moral duty as Homeland to love human moral duty is, every one human own Homeland in front of responsibility perception, spiritual to perfection striving To the homeland was love human kind, generous, selfless and loyal to be encouragement and social to unity contribution adding Homeland to love in society social solidarity to strengthen service to do scientific in terms of Our country has a rich history. has and this past during our people to the invaders against fight for the homeland protection to do regarding hobbies They showed. Only one example 13th century at the beginning Mongols attack on the eve of Urgench 76-year-old on the doorstep Najmiddin Kubro's their courage separately remembering transition " Yes . " homeland, or honorable death ” — Najmiddin Kubro's this word homeland and glory between deep connection This statement represents one person's

to his homeland was his loyalty, his cultural and spiritual values appreciate means [3]. Homeland, a person's who determinant important factor It is not only geographical location, maybe of the nation history, traditions and culture sum as is considered. Honorable death and, of man to glory achieve, own his life any great goal on the way, for example, to his homeland service as transfer intending to be This expression shows from death according to, courage, loyalty and in front of the country responsibility means. Kubron's words, people own to their homeland loyal to stay and his/her fame for to fight These thoughts, their in turn, national pride and identity not to lose importance emphasizes.

According to Robin Cohen, our modern our world determinant three main power, that is globalization, multiculturalism and nationalism into account when you get, the solution in cosmopolitanism lies, because, a on the other hand, on the other no how road no and this our global conditions one is part of, the second from the side but only cosmopolitanism individual worldwide point of view from the point of view to see opportunity giving right choice is [4].

Cosmopolitanism is the world as a single community as acceptance to do based idea and views system is, then national countries, borders and cultural differences second level importance [5]. This concept has been around since the 18th century. Beginning in the Enlightenment period developing and promoting the global unity of humanity and general condition improve the necessity emphasizes. Cosmopolitanism supporters of humanity unity, universal values and global problems together solution to do the necessity confession They are. Their to the mind according to, modern in the world people themselves living from the country responsible outside too to be it is necessary, this and global problems — climate change, economic injustice, wars and poverty such as issues solution to do to join means. Cosmopolitanism point of view in my opinion according to, person not only own country citizen, maybe whole world citizen as visibility necessary. This is your in turn, national and local identification not limited, but rather a sense of global responsibility and whole humanity well-being to work for in mind For example, the

UN Human rights worldwide Declaration (1948) of cosmopolitanism main from the principles one reflection because it is all of people equality and their of rights provides protection. Cosmopolitanism social and political in context done increase many researchers by every kind in directions They are also cosmopolitan. identity and whole world along calculated ecosystem, economic and cultural mutual of effects mutual closely dependence They emphasize. Such approach humanity unification, peace and cooperation to develop aimed at social and political actions for important basis become service does.

Multiculturalism is in society different cultural, ethnic and religious groups to oneself uniqueness save remaining without together to live and activity to conduct to provide aimed at political and social philosophy [2]. This concept, globalization in the process importance further increasing going cultural diversity to appreciate in mind holds, as well as individual and group rights protection to do, different to cultures respect with in a relationship to be and all groups for equal right and opportunities to create to provide priority importance Multiculturalism also gives one of culture to society adding unique contribution confession will and cultural exchange and integration positive recognizes the impact of this process . different cultural components to each other impact and mutual enrichment in the process manifestation For example, art, music, gastronomy and language such as in the fields cultural exchange through new trends and creative ideas appearance However, multiculturalism different groups between disagreements and of conflicts prevent tries to get it. This is his in turn, word freedom, research and communication platforms promote to do through done increased, as well as social justice and to equality to achieve aimed at politics and programs working Multiculturalism success mainly different peoples and cultures between mutual understanding, compromise and social unity to provide is related. Such approach external conflicts to reduce and internal the merger to strengthen help gives, this and in society last social and economic to stability take Scientists and social scientists multiculturalism modern global problems solution to grow tool as seeing, it is humanity in progress and social

in spirit important place to hold emphasizes.

Nationalism is known one nationality, ethnicity group or one of the people to oneself typical characteristics, culture, traditions and history to preserve, to develop aimed at social, political and cultural Nationalism is a movement. mainly of the nation unity, identity understanding and freedom for fight feeling based on Nationalism is formed. many forms there is of them The first is ethnic. nationalism, he himself typical historical and cultural to the features has groups unites. The second is political nationalism is, it is national independence, political insulation and state sovereignty to provide For example, in history nationalism actions, that including the 19th century In Europe formed national countries laws, national merger and independence struggles with Nationalism known at the level social merger and in competition, including other nations, cultures and economic systems with related also affects relationships shows. Such main aspects nationalism to oneself uniqueness determinant from factors Nationalism is positive sides — national identification strengthen and social unity creation if, negative aspects — discrimination or other to the nations relatively hostility increase possible. With this together, modern in the world nationalism's global problems solution in the making place also discussed about take is going on because it is globalization in the process national identity how save stay the necessity emphasizes. These aspects nationalism complicated and many edge event as to understand opportunity gives.
